Date: December 9, 2020

Bone Reports follows the ICMJE recommendations regarding conflict of interest disclosures. All authors are required to report the following information with each submission:

1. All third-party financial support for the work in the submitted manuscript.

2. All financial relationships with any entities that could be viewed as relevant to the general area of the submitted manuscript.

3. All sources of revenue with relevance to the submitted work who made payments to you, or to your institution on your behalf, in the 36 months prior to submission.

4. Any other interactions with the sponsor of outside of the submitted work should also be reported.

5. Any relevant patents or copyrights (planned, pending, or issued).

6. Any other relationships or affiliations that may be perceived by readers to have influenced, or give the appearance of potentially influencing, what you wrote in the submitted work.

This information will be acknowledged at publication in a Transparency Document.

➔➔ If there are no conflicts of interest then please state this: 'Conflicts of interest: none'.

See also https://www.elsevier.com/conflictsofinterest.

Further information and an example of a Conflict of Interest form can be found at: https://service.elsevier.com/app/answers/detail/a_id/286/supporthub/publishing.

Potential conflicts of interest do not necessarily preclude publication and authors are advised to err on the side of transparency and openness in declaring any relevant relationships.

Article BONR__100734

Histopathology of osteogenesis imperfecta bone. Supramolecular assessment of cells and matrices in the context of woven and lamellar bone formation using light, polarization and ultrastructural microscopy.

Name: Frederic Shapiro, MD Frederic Shapiro, MD

Conflicts of interest: None
