duodenum
jejunum
ileum
cecum
colorectum
Cell cycle control, cell division, chromosome partitioning
Cell motility
Cell wall/membrane/envelope biogenesis
Defense mechanisms
Intracellular trafficking, secretion, and vesicular transport
Posttranslational modification, protein turnover, chaperones
Signal transduction mechanisms
Replication, recombination and repair
Transcription
Translation, ribosomal structure and biogenesis
Amino acid transport and metabolism
Carbohydrate transport and metabolism
Coenzyme transport and metabolism
Energy production and conversion
Inorganic ion transport and metabolism
Lipid transport and metabolism
Nucleotide transport and metabolism
Secondary metabolites biosynthesis, transport and catabolism
