

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Correction to *Lancet Psychiatry* 2021; 8: e4

Kapur N, Clements C, Appleby L, et al. *Impact of the Covid-19 pandemic on the frequency of primary care-recorded mental illness and self-harm episodes in the UK: population-based cohort study of 14 million individuals*. *Lancet Psychiatry* 2021; 8: e4—In this Correspondence, the title should read “Effects of the COVID-19 pandemic on self-harm”. We have corrected the title and have updated the details to reference number four. These corrections have been made to the online version as of Dec 15, 2020, and will be made to the printed version.
