

RETRACTION NOTICE

The following article from the *Journal of Neurogastroenterology and Motility*, “A Novel Approach in Spinal Cord Stimulation for Enhancing Gastric Motility: A Preliminary Study on Canines,” published in page 147-159, issue 1, volume 26, 2020 has been retracted due to a formal request from the authors. Rationale for self-retraction is that surgical complication associated with the placement of stimulation device was not adequately reported.
