

Correction: An *In Vitro* Microneutralization Assay for Influenza Virus Serology

Frans Cuevas, Hisaaki Kawabata, Florian Krammer, and Juan Manuel Carreño

Current Protocols is issuing corrections for the following Protocol article.

Cuevas, F., Kawabata, H., Krammer, F., & Carreño, J. M. (2022). An *in vitro* microneutralization assay for influenza virus serology. *Current Protocols*, 2, e465. doi: 10.1002/cpz1.465.

In the above-referenced article:

In the Figure 1 legend, “100 TCID₅₀/ml” was corrected to “100 TCID₅₀/50 µl”.

In step 60 of the Basic Protocol, “100 µl” was corrected to “50 µl”.

The current version online now includes these corrections and may be considered the authoritative version of record.
