(Molecular Therapy: Nucleic Acids 18, 110–122; December 2019)

This article has been retracted at the request of the authors and the editor-in-chief. The authors contacted the editorial office indicating errors in images in Figure 10. Image analysis performed by the editorial office confirmed four instances of image duplication in Figures 10A and 10B. This reuse (and in part misrepresentation) of data without appropriate attribution represents a severe abuse of the scientific publishing system. The authors agree with this retraction.
