**Hannah E. Davis** , **Lisa McCorkell** , **Julia Moore Vogel**  & **Eric J. Topol** 

In the version of this article initially published, there was a reference error in the last sentence of the Figure 2 legend, where the first reference for “dysautonomia” (ref. 12, Larsen et al. *Front. Neurol.* **13**, 1012668 (2022)) was incorrectly cited as ref. 8, Xie et al. *Nat. Med.* **28** 583–590 (2022). In addition, the second sentence in Box 1 has been revised to clarify the likelihood risk of post-acute symptoms and health problems for comparatively younger individuals with long COVID. The changes have been made in the HTML and PDF versions of the article.
