Erratum to: Ann Transl Med 2021;9:1535

This article (1) titled “Atractylodin may induce ferroptosis of human hepatocellular carcinoma cells” (doi: 10.21037/atm-21-4386), unfortunately contains errors in *Figure 3* and the Reagents and Antibodies section of the main text.

The pictures of *Figure 3A* and *3C* overlapped and should be corrected. The corrected *Figure 3* is presented below.

Corrected *Figure 3*:

In the Reagents and Antibodies section, part of the first sentence should be changed from “Atractylin (C₁₃H₁₀O), purity ≥99%, relative molecular weight: GPX4 polyclonal antibody (#14432-1-AP), ACSL4 monoclonal antibody (#666171-IG), CD71, GPX4 polyclonal antibody (#14432-1-AP)” to “Atractylotin (C₁₃H₁₀O), purity ≥99%, GPX4 polyclonal antibody (#14432-1-AP), Beta Actin Recombinant antibody (#81115-1-RR)”.

The authors apologize for the oversight.
