The original version of this Article contained an inaccuracy in the Methods section “CyTOF analysis”.

The original sentence “Cells were then washed twice by centrifuging through PBS (800 × *g*, 5’) prior to re-suspending in PBS with 4-element EQ normalization beads (Standard BioTools: 201078)” should have read “Cells were then washed twice by centrifuging through PBS at 800 × *g*, 5’ prior to re-suspending in Maxpar Cell Acquisition Solution (Standard BioTools: 201241) with 4-element EQ normalization beads (Standard BioTools: 201078)”.

This has now been corrected in the PDF and HTML versions of the Article.
