September 2023, Pages S9–S15, <https://doi.org/10.1093/jcag/gwad004>

In the originally published version of this manuscript, author Julia Gorospe was inadvertently omitted from the author list.

The ‘Key Points’ section contained an error, whereby ‘1000,000’ should have been given as ‘100,000’ in Point 6:

“If trends in incidence remain the same over the next decade, then incidence will climb to 32.1 per 1000,000 in 2035; representing 14,000 Canadians newly diagnosed with IBD in 2035.”

The manuscript has been corrected accordingly.
