REASON FOR WITHDRAWAL FROM PUBLICATION

This review has been withdrawn from 2008 Issue 3 of The Cochrane Library, since we consider that it no longer has relevance for current tobacco control policy and practice. We expect to publish in the near future a comprehensive new review of the effects of bans, restrictive policies and legislation.

The editorial group responsible for this previously published document have withdrawn it from publication.

WHAT'S NEW

Date	Event	Description
6 May 2008	Amended	Converted to new review format.
6 May 2008	Review declared as stable	This review will shortly be superseded by a new review, 'Smoking bans for reducing smoking prevalence and tobacco consumption'.
