Genetics

Correction for “Defective carotid body function and impaired ventilatory responses to chronic hypoxia in mice partially deficient for hypoxia-inducible factor 1 α ,” by David D. Kline, Ying-Jie Peng, Dominador J. Manalo, Gregg L. Semenza, and Nanduri R. Prabhakar, which was first published January 15, 2002; 10.1073/pnas.022634199 (*Proc. Natl. Acad. Sci. U.S.A.* **99**, 821–826).

The authors note that, “In Fig. 1A, there was a cut-and-paste error such that the same ventilatory tracing was used for the *Hif1a*^{+/+} mouse exposed to 100% O₂ and 21% O₂. This oversight does not affect the major conclusions of this paper. Nonetheless, we truly apologize for the error.”
