Error in Figure

In the original publication [1], there was a mistake in **Figure 2B**. **Among the uploaded Oil Red O staining images in Figure 2B, genistein and genistin 100 μ M were used identically to the images of genistein and genistin 50 μ M, but this was an error in the process of inserting images from the same 12-well plate, so this part was corrected.** The corrected **Figure 2** appears below. The authors apologize for any inconvenience caused and state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
