

Correction to “Explaining barriers to childbearing using the risk communication and community engagement (RCCE) strategy: Based on action research”

NeJhaddadgar N, Ziapour A, Jafarzadeh M, Ezzati F, Rezaei F, Darabi F. Explaining barriers to childbearing using the risk communication and community engagement (RCCE) strategy: based on action research. *Health Sci Rep.* 2023;6:e1606. doi:10.1002/hsr2.1606

In the “ETHICS STATEMENT” section, the text “Ethical approval was obtained and approved for the study from the Ethics Committee at the Mazandaran University of Medical Sciences.” was incorrect. This should have read: “Ethical approval was obtained and approved for the study from the Ethics Committee at the Ardabil University of Medical Sciences.”

We apologize for this error.
