Retraction to: *Cell Death and Disease* (2021) 12:733 <https://doi.org/10.1038/s41419-021-04023-w>, published online 23 July 2021

The Editors-in-Chief have retracted this article after concerns were reported about some of the data presented. After publication, it was identified that the Western blot image for the  $\beta$ -actin control in Fig. 6B had been re-used in Fig. 5J. Areas of apparent overlap were also identified in some of the flow cytometry plots presented in the supplementary materials. The Editors-in-Chief therefore no longer have confidence in the reliability of their conclusions. The authors did not respond to correspondence from the publisher about this retraction.
