In the original publication, Table 1, PK Parameters has been corrected from  $AUC_{0-24h}$  (ngh/mL) to  $AUC_{0-24h}$  (ng·h/mL). The footnote has been revised as “Data are mean (SD) unless otherwise stated.  $AUC_{0-24h}$  Area under the plasma concentration–time curve from 0 to 24 h,  $C_{max}$  maximum plasma concentration, PK pharmacokinetic, SD standard deviation”. The publisher apologises for the errors that were introduced.
