Retraction to: *Quant Imaging Med Surg* 2015;5:754-64.

The article entitled “Current role of multiparametric magnetic resonance imaging for prostate cancer” (1) published in Vol 5, No 5 (October 26, 2015) issue of *Quantitative Imaging in Medicine and Surgery* was retracted due to some overlaps with two articles “Current role of multiparametric magnetic resonance imaging in the management of prostate cancer” (doi: [10.4111/kju.2015.56.5.337](https://doi.org/10.4111/kju.2015.56.5.337)) and “Multiparametric-MRI in diagnosis of prostate cancer” (doi: [10.4103/0970-1591.159606](https://doi.org/10.4103/0970-1591.159606)) respectively. All authors agreed with the retraction decision and apologize for the unintentional overlap.
