Article title: “Respiratory tract infections in Norwegian primary care 2006–2015: A registry-based study”

Authors: Larsen, L., Wensaas, K.-R., Emberland, K. E., and Rortveit, G.

Journal: *Scandinavian Journal of Primary Health Care*

Bibliometrics: Volume 40, Number 2, pages 173–180

DOI: [10.1080/02813432.2022.2069711](https://doi.org/10.1080/02813432.2022.2069711)

When this article was first published online, [Figure 3](#) of the y-axis was labelled “% of consultations with CRP test use” and should be labelled “% of consultations with sickness certificate issuing”. This has now been corrected with an updated [Figure 3](#).

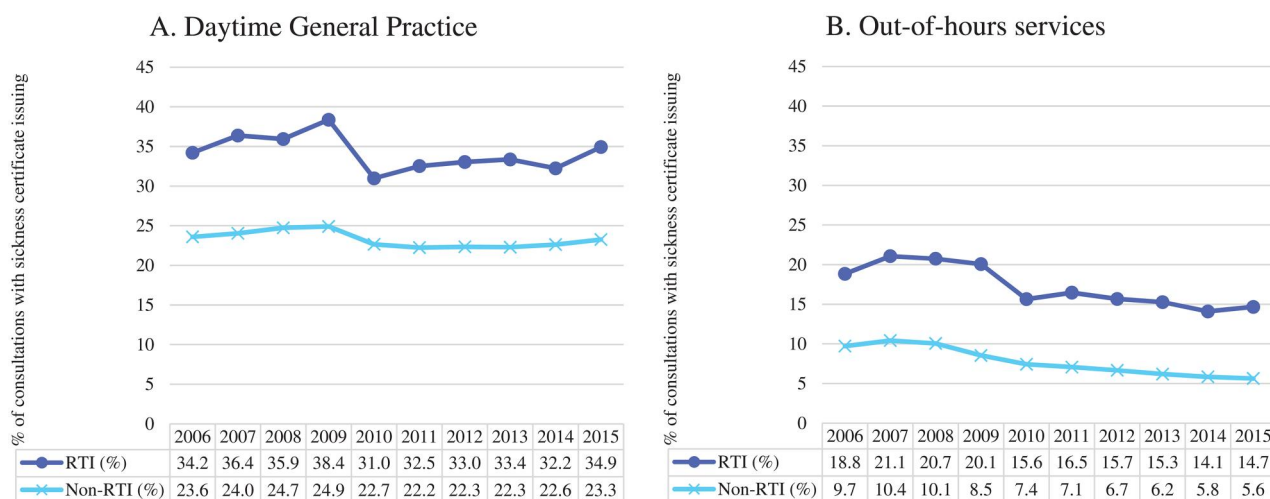

Figure 3. (A and B) Annual percentage of consultations with sickness certificate issuing, by respiratory tract infection (RTI) status, in Norwegian daytime general practice and out-of-hours services (2006–2015).
