Table 4 Outcome of BPTG@HOME versus waiting list and care-as-usual treatment, analyzed with linear mixed model for repeated measures

There is an error in Table 4, the SNAP ADHD value for the waiting list is given as 18.5 in the published paper. However, this should be 28.5.

The original article can be found online at <https://doi.org/10.1007/s00787-019-01375-9>.
