# Retraction: Platelet-derived exosomal microRNA-25–3p inhibits coronary vascular endothelial cell inflammation through Adam10 via the NF- $\kappa$ B signaling pathway in ApoE<sup>-/-</sup> mice

Frontiers Editorial Office\*

## A Retraction of the Original Research Article

**Platelet-derived exosomal microRNA-25–3p inhibits coronary vascular endothelial cell inflammation through Adam10 via the NF- $\kappa$ B signaling pathway in ApoE<sup>-/-</sup> mice**

by Yao Y, Sun W, Sun Q, Jing B, Liu S, Liu X, Shen G, Chen R and Wang H (2019). *Front. Immunol.* 10:2205. doi: 10.3389/fimmu.2019.02205

The Publisher retracts the cited article.

“Following publication, concerns were raised regarding the integrity of the images in the published figures OR regarding the validity of the data presented in the article. The authors failed to provide the raw data or a satisfactory explanation during the investigation, which was conducted in accordance with Frontiers’ policies. Given the concerns about the validity of the data, and the lack of raw data, the editors no longer have confidence in the findings presented in the article.

This retraction was approved by the Chief Executive Editor of Frontiers. The authors received a communication regarding the retraction and had a chance to respond. This communication has been recorded by the publisher.”
