Hassan H I, Othman S M (July 18, 2024) Correction: Sugar-Sweetened Beverage Consumption and Its Association With Dental Caries Among Adolescents in Erbil, Iraq: A Cross-Sectional Study. Cureus 16(7): c186. doi:10.7759/cureus.c186

Correction Notice

This article has been corrected due to an error in the abstract. The second paragraph of the abstract originally included the following: “tooth (DMFT) was 94.58 ± 2.73 .” This has been corrected to: “tooth (DMFT) was 4.58 ± 2.73 .” The authors and journal deeply regret that this typo was not identified and addressed prior to publication.
