During preparation of the Key Resources Table for this study, we made an error in listing Estradiol from Sigma-Aldrich as bearing catalog number E8875 and CAS 50-28-2. The correct reagent name is  $\beta$ -Estradiol 3-benzoate, which was also obtained from Sigma-Aldrich, and the associated catalog number and CAS are E8515 and 50-50-0, respectively; we only used this formulation of Estradiol in our study. The error in preparing the Key Resources Table does not affect any of the results or interpretation of data reported in our study. We regret the error and apologize for any inconvenience.
