Comparison of albumin-mediated release of lysophosphatidylcholine and lysophosphatidylethanolamine from cultured rat hepatocytes

B. S. ROBINSON, D. J. BAISTED and D. E. VANCE

Vol. 264 (1989)

p. 125, synopsis, line 3:

for In the presence of albumin

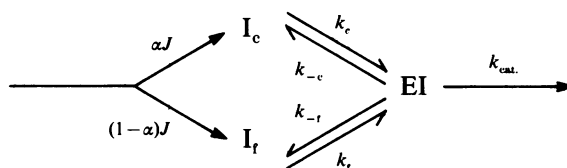

read In the absence of albumin

The analysis of metabolite channelling in multienzyme complexes and multifunctional proteins

J. S. EASTERBY

Vol. 264 (1989)

p. 605, Scheme 1: the channelled (I_c) and free-solution (I_f) intermediates have been transposed; the Scheme should therefore appear as follows:

p. 606, equation (10):

for $^cK_m = k_{-c}/k_c$ (10)

read $^cK_s = k_{-c}/k_c$ (10)

Sulphane sulphur in biological systems: a possible regulatory role

J. I. TOOHEY

Vol. 264 (1989)

p. 627, right-hand column, line 8:

for either directly or by transamination

read either directly by transamination
