

## Second Correction for Gao et al., "VqsA, a Novel LysR-Type Transcriptional Regulator, Coordinates Quorum Sensing (QS) and Is Controlled by QS To Regulate Virulence in the Pathogen *Vibrio alginolyticus*"

Xiating Gao, Xuetong Wang, Qiaoqiao Mao, Rongjing Xu, Xiaohui Zhou, Yue Ma, Qin Liu, Yuanxing Zhang, Qiyao Wang

Volume 84, no. 12, e00444-18, 2018, <https://doi.org/10.1128/AEM.00444-18>. Pages 4 and 6: Figures 1E and 2A should appear as shown in this correction. Regrettably, we compiled Fig. 1E and 2A incorrectly by inadvertently using the same image of anti-RNAP blot for loading controls. This was discovered after a previous correction to the Acknowledgments was published. We apologize for this error, which did not change the final result, conclusions, or discussions.
