## Correction to: Brain Topography

<https://doi.org/10.1007/s10548-023-00974-9>

In this article, the sentence beginning with “There was a significant main effect” in “**Results**” section under the heading “**Self-Rated Emotional Intensity and HRV**” has “a”, but it should be “no”.

**Incorrect Sentence:** There was a significant main effect of sex,  $F(1, 98)=0.78$ ,  $p=0.38$ ,  $\Delta\eta^2=0.01$  ( $M=2.49$  and  $SE=0.06$  for males;  $M=2.42$  and  $SE=0.06$  for females).

**Correct Sentence:** There was no significant main effect of sex,  $F(1, 98)=0.78$ ,  $p=0.38$ ,  $\Delta\eta^2=0.01$  ( $M=2.49$  and  $SE=0.06$  for males;  $M=2.42$  and  $SE=0.06$  for females).

The original article has been corrected.
