

Corrigendum

In: Sharma K, Sorchu B, Law M, Sriram V, Health worker protests and the COVID-19 pandemic: an interrupted time-series analysis. *Bull World Health Organ.* 2024 Sep 1; 102 (9): 650–6., on page 652, Figure 1 should appear as follows:

Fig. 1. **Total health worker protest activity globally, 2018–2022**

COVID-19: coronavirus disease 2019.

Note: The outlying point at week 76 in the pre-pandemic period is driven by a wave of protests in India between 12 and 18 June 2019. The dashed line represents the counterfactual scenario: that is, an extrapolation of the trend in protest activity before COVID-19 was declared a pandemic into the period after COVID-19 was declared a pandemic, and reflects what would be expected in the absence of an external shock.

Corrigendum

In: Smith Taillie L, Duran AC. The case for mandatory – not voluntary – front-of-package nutrition labels. *Bull World Health Organ.* 2024 Oct 1; 102 (10):765–8,

on page 765, second paragraph, sixth and seventh sentences should read as follows:

A recent review of the voluntary Nutri-score label implemented in seven European countries (Belgium, France, Germany, Luxembourg, the Kingdom of the Netherlands, Spain and Switzerland) found that most positive studies were conducted by Nutri-score's developers, while most independent studies reported negative results.⁴ However, this assessment should be interpreted with caution, since the review authors themselves may have had a conflict of interest due to industry funding.
