

RETRACTION

Retraction: Does globalization matter in the relationship between renewable energy consumption and economic growth, evidence from Asian emerging economies

The *PLOS ONE* Editors

The *PLOS ONE* Editors retract this article [1] because it was identified as one of a series of submissions for which we have concerns about potential manipulation of the publication process and authorship. These concerns call into question the validity and provenance of the reported results. We regret that the issues were not identified prior to the article's publication.

All authors did not agree with the retraction.
