In the original version of this Article Gabriele Torino and Silvia Leone were omitted as equally contributing authors. The statement now reads:

“Gabriele Torino and Silvia Leone contributed equally to this work.”

Additionally, the first paragraph of the Acknowledgements section was incomplete where a grant fund was omitted.

“The MILESTONE project was funded by the European Union’s Seventh Framework Programme for research, technological development, and demonstration (Grant Agreement: 602442). We extend our thanks and appreciation to all the study participants, their families and carers, and clinicians for their contribution. We are also grateful to the wider MILESTONE project consortium for their valuable collaboration during the all study.
