## Correction to: Emergency Radiology (2024)

<https://doi.org/10.1007/s10140-024-02284-4>

The original version of the article contains error. There is a typo error in the first sentence of the Abstract section. It should read “providers perceive the teratogenic risks of radiologic imaging to be higher” instead of “providers perceive maging to be higher”.

The original article has been corrected.
