The original version of this Article omitted relevant details in fifth sentence of the Acknowledgements. The incorrect version of the sentence in the Acknowledgements read:

“LQSGW and DMFT calculations have been carried out using resources of the National Energy Research Scientific Computing Center (NERSC), a US Department of Energy Office of Science User Facility operated under Contract No. DE-SC0021970.”

The correct version should read:

“LQSGW and DMFT calculations have been carried out using resources of the National Energy Research Scientific Computing Center (NERSC), supported by the Office of Science of the U.S. Department of Energy under Contract No. DE-AC02-05CH11231 using NERSC award BES-ERCAP0024866.”

This has now been corrected in both the PDF and HTML versions of the Article.
