

Correction

The authors of "Spindle Pole Organization in *Drosophila* S2 Cells by Dynein, Abnormal Spindle Protein (Asp), and KLP10A" (Mol. Biol. Cell [2005] 16, 3176–3186; published online before print as 10.1091/mbc.E04-12-1110) would like to make a correction to the paper. During the preparation of Figure 7, one of the fluorescence scans was inadvertently duplicated in panels B and C. This error does not in any way change the conclusions of the paper. The correct image is published below:
