CORRIGENDUM

Volume 95, May–August 1980

In the paper by LUIS SILVELA (GENETICS **95**: 769–782), two errors appeared. On page *773*, the equation after "The rate of advance is" should be:

$$R[q]_t = E[q]_{t+1} - E[q]_t = q(1-q)iu\, [A^t + A^t B^t (1-2q)a]\ .$$

On page 774, the bracket in the first equation was misplaced. It should read as follows:

$$
\begin{bmatrix}
E[q(1-q)]_1 \\[4pt]
E[q(1-q)(1-2q)iu]_1 \\[4pt]
E[q^2(1-q)^2 iua]_1
\end{bmatrix}
= A
\begin{bmatrix}
1 + iua & 1 & -\dfrac{8N-6}{2N-1} \\[8pt]
0 & B & 0 \\[8pt]
\dfrac{A}{2N}\,iua & 0 & BC
\end{bmatrix}
\begin{bmatrix}
q(1-q) \\[4pt]
q(1-q)(1-2q)iu \\[4pt]
q^2(1-q)^2 iua
\end{bmatrix}
$$
