

How the human telomeric proteins TRF1 and TRF2 recognize telomeric DNA: a view from high-resolution crystal structures

Robert Court, Lynda Chapman, Louise Fairall & Daniela Rhodes

EMBO reports (2005) 6, 39-45

ERRATUM

In the January 2005 issue, an incorrect version of Fig 5 in the above article was published. The correct figure and legend are printed here.

doi:10.1038/sj.embor.7400348

Fig 5 | DNA structure in the TRF1 and TRF2 binding sites. The widths of the DNA major and minor grooves in the complexes were calculated using the program CURVES (Lavery & Sklenar, 1989). The average major and minor groove widths of B-form DNA are shown for reference.
