

*Corrections*

Sobie, E. A., K. W. Dilly, J. d. S. Cruz, W. J. Lederer, and M. S. Jafri. 2002. Termination of cardiac of  $\text{Ca}^{2+}$  sparks: an investigative mathematical model of calcium-induced calcium release. *Biophys J.* 83:59–78.

Equation 9 and the surrounding text should read:

Buffering in the JSR by calsequestrin uses the rapid buffering approximation (Smith et al., 1994) given by:

$$\beta_{\text{JSR}} = \left[ 1 + \frac{[\text{CSQ}]_{\text{Total}} K_{\text{CSQ}}}{(K_{\text{CSQ}} + [\text{Ca}^{2+}]_{\text{lumen}})^2} \right]^{-1}, \quad (9)$$

where  $[\text{CSQ}]_{\text{Total}}$ , and  $K_{\text{CSQ}}$  represent the total calsequestrin concentration and  $\text{Ca}^{2+}$ -dissociation constant, respectively, of calsequestrin.

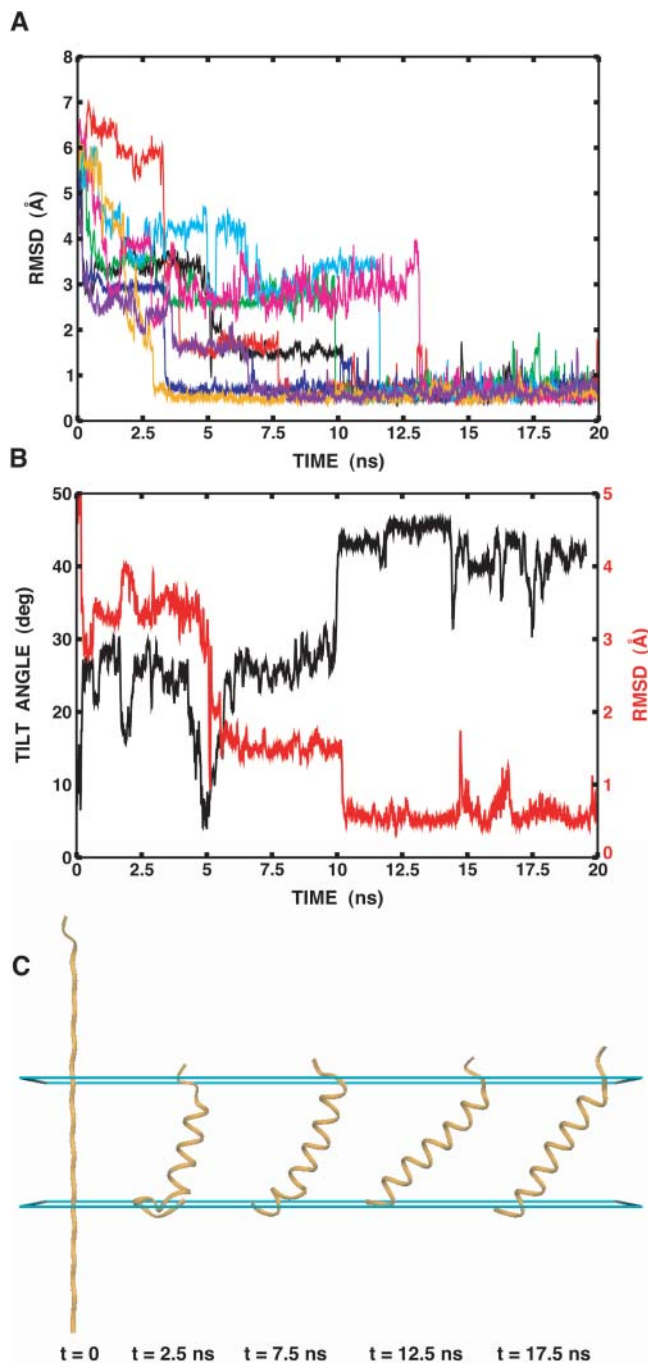

Equation 12 should read

$$K_m = 17.14 - 0.00686[\text{Ca}^{2+}]_{\text{lumen}} \mu\text{M} \quad (12)$$

This correction is posted at [http://www.binf.gmu.edu/jafri/models/spark\\_errata.pdf](http://www.binf.gmu.edu/jafri/models/spark_errata.pdf). The authors apologize for this error and any inconvenience it might have caused the readers of the *Biophysical Journal*.
