

ERRATUM

Re: Volume 21, Number 2, March, 1974:

In the article, "Preference for fixed-interval schedules: effects of initial-link length," by G. R. Wardlaw and M. C. Davison, the sequence of conditions is incorrectly given in part of the lower half of Table 1. Under the heading *VI 27-sec Initial Links*, the sequence should read just as it does in the upper half, namely:

FI 5	FI 15
FI 7.5	FI 5
FI 5	FI 10
FI 5	FI 5
