

ERRATUM

Re: *JEAB* Volume 24, pages 121-133: In the article "Inhibitory stimulus control following errorless discrimination learning" by M. Rilling, H. J. Caplan, R. C. Howard, and C. H. Brown, the numbers on the vertical axis of Figure 3, page 128, were incorrect; each number would have to be divided by five to convert from total responses to response rate. A corrected Figure 3 is published below.
