Briers (consultant radiologist, North Gloucestershire clinical area); Dr. R. H. Fox (consultant radiologist, Devon and Exeter clinical area, Torquay); Dr. J. V. Lever (consultant in morbid anatomy and histopathology, Bath clinical area).

Corrections

Respiratory Disease in Young Adults

In the article "Respiratory Disease in Young Adults: Influence of Early Childhood Lower Respiratory Tract Illness, Social Class, Air Pollution and Smoking" by J. R. T. Colley, J. W. B. Douglas, and D. D. Reid (28 July, p. 195) the fourth sentence of the discussion should have read "... coherence and a consistency in the patterns of prevalence observed that give confidence in the interpretation of the results."

Rootless Wanderers

Our Parliamentary report on Lady Summerskill's speech in the House of Lords should have read (28 July, p. 242): "A very large percentage of prisoners (not 'pensioners') were now remanded in order that a medical report should be obtained."
