

ERRATUM

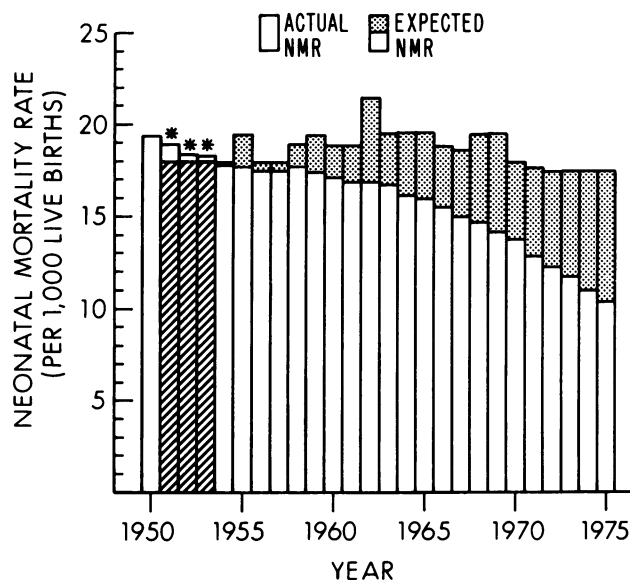

In the article by Lee KS, Paneth N, Gartner LM, et al: Neonatal mortality: an analysis of the recent improvement in the United States, *Am J Public Health* 70:15-21, 1980, the diagrams in Figures 5, 6 and 7 were transposed. The figure

legends are correct and the text referring to them; however, the figures positioned above the legends are incorrect. The Journal regrets the error. The corrected placement of the three figures with legends is reprinted below:

Expected annual neonatal mortality rate for each year is calculated with each year's actual birthweight distribution and fixed birthweight-specific mortality rates of 1950

FIGURE 5—Actual and Expected Annual Neonatal Mortality Rates per 1000 Live Births in the U.S., 1950-1975

*For the years 1951 to 1953, actual rates are represented by the whole column, and expected rates by slashed column.

FIGURE 6—Actual and Expected Annual Neonatal Mortality Rates per 1000 for White Live Births in the U.S., 1950-1975

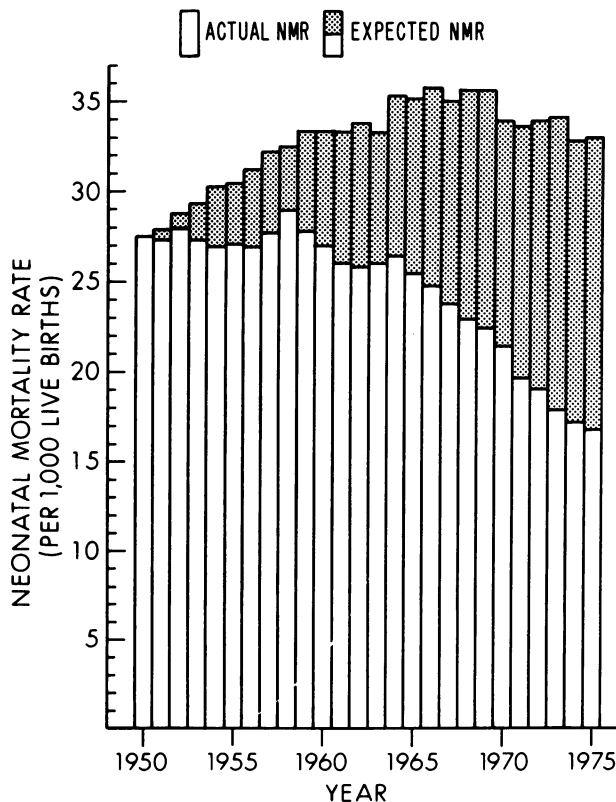

FIGURE 7—Actual and Expected Annual Neonatal Mortality Rates per 1000 for Nonwhite Live Births in the U.S., 1950-1975
