#### Corrections

##### L-Dopa

In the article on "Treatment of Parkinsonism with Laevo-Dopa" (7 February, p. 331), the second sentence of the summary should read "Nine were markedly and 13 moderately improved, and, of these, 11 patients continued to take the drug." These figures quoted in the first sentence of the second paragraph of the section on "Moderate Improvement" should also read "13" and "11," respectively. Cyclizine 50 mg. was administered three times daily.

##### G.P.s and the District Hospital

We regret that the letter on this subject from Dr. H. W. Fladée (14 February, p. 436) was printed under the wrong heading.
