### Modeling Surface Growth of *Escherichia coli* on Agar Plates

Hiroshi Fujikawa and Satoshi Morozumi

*Tokyo Metropolitan Institute of Public Health, Department of Microbiology,  
3-24-1, Hyakunin-cho, Shinjuku, Tokyo 169-0073, Japan*

Volume 71, no. 12, p. 7920–7926, 2005. Page 7924, Figure 6: There was an error in the calculation of the Baranyi model, resulting in an invalid Fig. 6. The corrected figure panels (below) show that the Baranyi model produced almost the same growth curves at the dynamic temperatures as the new logistic model.
