**AGRICULTURAL SCIENCES.** For the article “Characterization of capsaicin synthase and identification of its gene (*csy1*) for pungency factor capsaicin in pepper (*Capsicum* sp.),” by B. C. Narasimha Prasad, Vinod Kumar, H. B. Gururaj, R. Parimalan, P. Giridhar, and G. A. Ravishankar, which appeared in issue 36, September 5, 2006, of *Proc Natl Acad Sci USA* (103:13315–13320; first published August 28, 2006; 10.1073/pnas.0605805103), the authors note that on page 13318, right column, in *Assay of CS*, line 4, “1 ml of enzyme extract in 1 ml of reaction mixture” should instead read: “0.1 ml of enzyme extract in 1 ml of reaction mixture.” In addition, on page 13320, left column, in *Heterologous Expression of csy1*, line 6, “The forward primer ATGTTGCTGGAAATCAGTTGTCCG3 encoding MIFILTVN” should instead read: “The forward primer 5'-ATGATCTTCATTTTGACCGTAAAC-3' encoding MIFILTVN.” Also on page 13320, in the same section, right column, first line, “transformed to DH 5 $\alpha$ ” should instead read: “transformed to BL 21.” These errors do not affect the conclusions of the article.
