Telomere-based crisis: functional differences between telomerase activation and ALT in tumor progression

Sandy Chang, Christine M. Khoo, Maria L. Naylor, Richard S. Maser, and Ronald A. DePinho

In Figure 2, panel A, the panel of chromosomes labeled V1 P52 is incorrect. The corrected panel is printed below along with its legend.

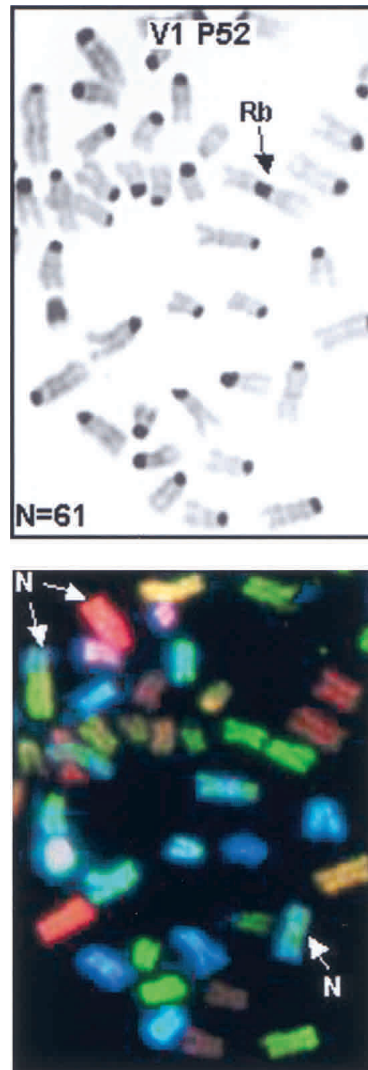

Figure 2. Evolving cytogenetic profile of V1 P52 cell line. Inverse DAPI (*top*) and SKY (*bottom*) analysis of chromosomes. (*Top*) Rb, Robertsonian translocation; N, number of chromosomes per metaphase. (*Bottom*) N (arrows), nonreciprocal translocations.
