Genes & Development 21: 1857–1862 (2007)

***Let-7* microRNA-mediated mRNA deadenylation and translational repression in a mammalian cell-free system**

Motoaki Wakiyama, Koji Takimoto, Osamu Ohara, and Shigeyuki Yokoyama

In the above-mentioned paper, the authors have identified a typographical error that they would like to correct. In the Materials and Methods section on page 1861, in the left column, in the second paragraph under the heading Cell Culture and Transfection, “pCMV-SPORT/Flag-hDicer, pCMV-SPORT/Flag-TRBP2” should read “phCMV1/Flag-hDicer, phCMV1/Flag-TRBP2.” This correction alters none of the data or conclusions.
