

SECRETARY'S REPORT

The new list of library members that has been in preparation is at last in the hands of the publication committee, and will be printed in the next number of the bulletin. Some members responded promptly to the postals sent out by the secretary, some required two requests, and some did not even respond to the third. However, we think the list is fairly accurate. Please notify the secretary of any changes that should be made. The plan is to have the list printed in the bulletin and then reprinted and distributed to the members.

In March a preliminary plan for the program was formed by the committee. The secretary sent out notices regarding the time, place and headquarters of the meeting. When the program was printed it was sent direct from Montreal by Dr. Francis and his helpers. The secretary thanks them for this assistance.

The secretary sent to the chairman of the nominating committee a list of the members of the association and also a list of those who have held any office during the last five years. The new machinery was hard to set in motion, since the members of the committee were so far apart. Ballots were sent out with the request that those unable to be present should send their votes to me here.

At last year's meeting the secretary was asked to send a letter, or letters to prominent physicians asking them to see what could be done about continuing the Index catalog of the Surgeon General's Library. The president had the opportunity to see a good many personally concerning it, and all is being done that can be to have it continued.

The following members have been approved by the executive committee:

Library Members

- American University of Beirut Medical Library, Beirut, Syria.
- Cleveland Clinic Library, Euclid Ave. and 93rd., Cleveland, Ohio.
