

## ERRATA

### Separation of Folic Acid Reductase from *Streptococcus faecium* (ATCC 8043)

EUGENE L. SPECK AND LEWIS F. AFFRONTI

*Department of Microbiology, The George Washington University School of Medicine, Washington, D.C. 20005*

Volume 97, no. 3, page 1161, column 2, line 41: Change "THEA" to "THFA." On page 1162, column 1, line 6, change "23%" to "230%."

### Mixotrophic Growth of *Hydrogenomonas eutropha*

SYDNEY C. RITTENBERG AND NELSON S. GOODMAN

*Department of Bacteriology, University of California, Los Angeles, California 90024*

Volume 98, no. 2, page 621, column 2, line 47: After "growth," add "yield of *H. eutropha* on fructose and hydrogen equalled the sum of the separate heterotrophic and autotrophic growths. The latter group found that mixotrophic growth"

### Regulation of Glyoxylate Metabolism in *Escherichia coli* K-12

L. N. ORNSTON AND M. K. ORNSTON

*Biochemistry Division, University of Illinois, Urbana, Illinois 61801*

Volume 98, no. 3, page 1107, column 2, last sentence of text should read: "The mechanism by which the cross between two malate synthase G-positive strains led to formation of a malate synthase G-negative recombinant is unknown, but analysis of this process may reveal a genetic entity that regulates the synthesis of both glyoxylate carboxylase and malate synthase G."

### Physical Heterogeneity Among *Bacillus subtilis* Deoxyribonucleic Acid Molecules Carrying Particular Genetic Markers

CHARLES R. STEWART

*Department of Genetics and Kennedy Laboratories for Molecular Medicine,  
Stanford University, Palo Alto, California 94304*

Volume 98, no. 3, page 1244, column 2, legend to Fig. 7, lines 8, 9, and 10: Each solid line should be dashed and each dashed line should be solid.
