CORRECTION

An error appeared on page 18 of Volume 36 (August 1963) in "Epidemiology of Poliomyelitis and Allied Diseases, 1963," by Dorothy M. Horstmann. The sentence should have read, "Payne²⁸ and Paul²⁹ have presented analyses of the history of poliomyelitis in various parts of the world in which it has been shown that when the infant mortality falls to a level of 70-80/1,000, epidemics of poliomyelitis are likely to make their appearance."
