

## Erratum

---

In previous case report entitled “Multidetector CT findings of a congenital coronary sinus anomaly: a report of two cases” by Chou et al. (*Korean J Radiol* 2008;9:S1-S6), there were mistakes.

“The Figure 1A and 1B are the MDCT findings of normal coronary sinus of a normal individual.”

“The Figure 1C to 1E are the MDCT findings of congenital coronary sinus anomaly in 60-year-old woman with Ebstein’s anomaly.”

“The Figure 2J and 2K are illustration of atresia of the right atrial ostium of the coronary sinus with/without PLSVC”
