

Notice of Redundant Publication

The article “Does the Oropharyngeal Fat Tissue Influence the Oropharyngeal Airway in Snorers? Dynamic CT Study” by Tolga Aksoz, Huseyin Akan, Mehmet Celebi, Banu Baglan Sakan, published in *Korean Journal of Radiology* (2004;5:102-106) is for the most part identical to an article by Huseyin Akan, entitled “Dynamic

Upper Airway Soft-Tissue and Caliber Changes in Healthy Subjects and Snoring Patients” published in *American Journal of Neuroradiology* (2004;25:1846-1850). All members of the ethical committee on publication of the Korean Radiological Society agreed that the two papers belong to the category of redundant publication.
