Pattern Selection in Plants: Coupling Chemical Dynamics to Surface Growth in Three Dimensions

DAVID M. HOLLOWAY and LIONEL G. HARRISON

Annals of Botany **101**: 361–374, 2008

There was an error in the partial derivative in equation 2a in this article: it should be $\partial X/\partial t$, rather than $\partial X/\partial Y$. The correct equation is given below:

$$\partial X/\partial t = aA - bBX + cX^2Y - dX + D_X \nabla^2 X \quad (2a)$$
