Comparison of Micro-ID, API 20E, and Conventional Media Systems in Identification of *Enterobacteriaceae*

KENNETH E. ALDRIDGE, BECKY B. GARDNER, STEPHEN J. CLARK, AND JOHN M. MATSEN
Department of Pathology, University of Utah College of Medicine, Salt Lake City, Utah 84132

Volume 7, no. 6, p. 512, column 1, lines 12-16 "... In this case, the lysine decarboxylase reaction was consistently negative with tube media and positive by the other two methods; hence, the tube method identified the organism as *E. cloacae*." should read "... In this case, the lysine decarboxylase reaction was consistently positive with tube media and negative by the other two methods; hence, the tube method identified the organism as *E. aerogenes*."

Occurrence of Mycoplasmas in Urinary Tracts of Patients with Acute Pyelonephritis

A. C. THOMSEN

The Institute of Medical Microbiology, University of Aarhus, and Surgical University Clinic I, Aarhus Amtssygehus, and Department of Urology, Aarhus Kommunehospital, Aarhus, Denmark

Volume 8, no. 2, p. 84, column 1, lines 7 and 8: literature citation "17" should read "16" throughout the article.

P. 87, column 2, line 4 and p. 88, column 1, line 36: literature citation "16" should read "A. C. Thomsen, J. Clin. Microbiol., in press" throughout the text.

Since this article's publication, the in-press reference has been published and can be found in J. Clin. Microbiol. 8:197-202.
